ABOUT ME

Full Stack Developer with a focus on Front-End, with experience developing projects focused on the e-commerce sector and web development, using technologies such as React, Node.js, PostgreSQL, Socket.io. Passionate about learning a little more every day, and interested in guaranteeing an excellent user experience.

Currently, I work as a Teaching Assistant accompanying and leading a group of developers, to create and strengthen both technical and soft skills.

I am interested in continuing to develop professionally by supporting an organization in projects focused on my sector, which allows me to continue developing the skills I currently have.
